

AALIA AMIN

Software Engineer | Go | Backend | Kafka | Redis | MySQL

☎ +91-7903168712 ✉ aaliaamin98@gmail.com 🔗 linkedin.com/in/aalia98/ 🐙 github.com/Aalia98

Experience

RNGplay

Software Engineer

Jan 2025 - June 2026

Tech: Go, TypeScript, Kafka, Redis, MySQL

- Built and maintained backend services powering **20+ real-time slot games** with **10K+ concurrent users**.
- Improved API latency by **40%** and reduced database load by **69%** through **Redis caching**.
- Diagnosed and fixed production **memory leaks** and **concurrency issues**, improving system stability by **90%**.
- Optimized large file uploads using **chunked processing**, reducing database CPU utilization from **80% to 5%**.
- Developed **TypeScript** based dashboards and internal tools for game management workflows.
- Integrated frontend applications with backend **REST APIs** to enable real-time data synchronization.
- Integrated **Kafka-based event-driven architecture** for real-time game events, wallet updates, and analytics pipelines.

Freelance

Software Engineer

Jan 2024 - Dec 2024

Tech: React, JavaScript, REST APIs, Git

- Developed scalable web applications integrating **10+ third-party APIs**.
- Built **20+ React** pages with reusable components, improving application performance by **30%**.
- Improved maintainability by designing modular **REST APIs** and responsive admin dashboards.
- Collaborated on deployment workflows and version control using **Git**.

Projects

Scalable E-Commerce System | Tech: Go, MySQL, Redis, Kafka

- Engineered a scalable **Go-based** e-commerce backend using **layered architecture**, with **REST APIs** for authentication, product catalog, cart, and order management.
- Implemented **JWT-based** authentication and **RBAC** to secure protected APIs and manage role-based permissions.
- Integrated **Redis** caching to reduce database read latency by **60%** and improve API performance.
- Implemented **Kafka** consumers for asynchronous order processing and notifications.
- Optimized **MySQL schema and indexing**, improving query performance by **25%**.

Technical Skills

Languages: Go, JavaScript, TypeScript, SQL

Backend: REST APIs, Microservices, Distributed Systems, Authentication, JWT

Database: MySQL, Redis

Messaging: Kafka

Frontend: React.js

Infrastructure & Tools: Docker, Linux, Git, Postman

Education

Master of Computer Application (MCA) - 82%

Lovely Professional University

Aug 2022 - Oct 2024

Jalandhar, Punjab

Achievements

- Solved **300+** Data Structures and Algorithms problems on LeetCode.
- Won **Best Employee of the Quarter Award** twice at RNGplay.
- Runner-up in **RNGplay Hackathon** among 11 teams.
