Aalia Amin

Software Engineer | Full Stack | Go | React | TypeScript | Kafka | Redis | MySQL

+91-7903168712 aaliaamin98@gmail.com linkedin.com/in/aalia98/ github.com/Aalia98

Experience

RNGplay Jan 2025 - June 2026

Software Engineer *Tech: Go, TypeScript, Kafka, Redis, MySQL*

- Contributed to backend services for **real-time slot games** as part of the engineering team.
- Contributed to **Kafka-based event-driven pipelines** for game events, wallet updates, and analytics.
- Worked on **Redis caching** that significantly reduced API latency and database load.
- Helped diagnose and fix production **memory leaks** and **concurrency issues**, improving system stability.
- Worked on optimizing file uploads using **chunked processing**, significantly reducing database CPU usage.
- Developed **TypeScript** based dashboards and internal tools for game management workflows.
- Worked on integrating frontend applications with backend **REST APIs** for real-time data synchronization.

Freelance Jan 2024 - Dec 2024

Software Engineer *Tech: React, JavaScript, REST APIs, Git*

- Developed scalable web applications integrating **10+** third-party APIs.
- Built **20+ React** pages with reusable components and responsive admin dashboards.
- Improved maintainability by designing modular **REST APIs**.
- Collaborated on deployment workflows and version control using **Git**.

Projects

Scalable E-Commerce System | *Tech: Go, MySQL, Redis, Kafka*

- Engineered a scalable **Go-based** e-commerce backend using **layered architecture**.
- Implemented **REST APIs** for authentication, product catalog, cart, and order management.
- Implemented **JWT-based** authentication and **RBAC** to secure APIs and manage role-based permissions.
- Integrated **Redis** caching to significantly reduce database read latency and improve API performance.
- Implemented **Kafka** consumers for asynchronous order processing and notifications.
- Optimized **MySQL schema and indexing**, noticeably improving query performance.

Technical Skills

Languages: Go, JavaScript, TypeScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: REST APIs, API Integration, Microservices, Distributed Systems, Authentication, JWT, RBAC

Database: MySQL, Redis

Messaging: Kafka

Infrastructure & Tools: Docker, Linux, Git, Postman

Education

Master of Computer Application (MCA) - 82% **Aug 2022 - Oct 2024**

Lovely Professional University *Jalandhar, Punjab*

Achievements

- Solved **300+** Data Structures and Algorithms problems on LeetCode.
- Won **Best Employee of the Quarter Award** twice at RNGplay.
- Runner-up in **RNGplay Hackathon** among 11 teams.
- Won the **Gold Medal** in the IT Quiz Competition at A. N. College, Patna (2019).
