

AALIA AMIN

Software Engineer | Golang | React | TypeScript | Distributed Systems | Kafka | Redis

📞 +91-7903168712 ✉ aaliaamin98@gmail.com 🔗 linkedin.com/in/aalia98/ 🌐 github.com/Aalia98

Experience

RNGplay

Jan 2025 - June 2026

Software Engineer

Tech: Go, React, TypeScript, Kafka, Redis, MySQL

- Built and maintained backend services powering **20+ real-time slot games** with **10K+ concurrent users**.
- Developed Go-based backend services integrating **Kafka** for asynchronous game events and **Redis** for high-frequency data caching.
- Improved API latency by **40%** and reduced database load by **69%** through **Redis caching**.
- Diagnosed and fixed production **memory leaks** and **concurrency issues**, improving system stability by **90%**.
- Optimized large file uploads using **chunked processing**, reducing database CPU utilization from **80% to 5%**.
- Developed **React** and **TypeScript** based dashboards and internal tools for game management workflows.
- Integrated frontend applications with backend **REST APIs** to enable real-time data synchronization.

Freelancer

Jan 2024 - Dec 2024

Software Engineer

Tech: React, JavaScript, REST APIs, Git

- Developed scalable web applications and integrated **10+** third-party APIs.
- Built **20+** dynamic pages using **React** and **JavaScript**.
- Improved application performance by **30%** through **lazy loading** and reusable component design.
- Implemented structured API consumption patterns improving frontend-backend communication reliability.
- Collaborated on deployment workflows and version control using **Git**.

Projects

Scalable E-Commerce System | Tech: Go, React, MySQL, Redis, Kafka

- Built a full-stack e-commerce platform using **Go, React, and REST APIs** supporting authentication, product catalog, cart, and order management.
- Implemented JWT-based **RBAC** securing protected APIs.
- Introduced **Redis caching** reducing database read latency by **60%**.
- Developed **Kafka** consumers for asynchronous order processing and notifications.
- Optimized **MySQL schema** and **indexing** improving query performance by **25%**.

Technical Skills

Languages: Go (Golang), TypeScript, SQL

Frontend: React.js

Backend: Microservices, REST APIs, Distributed Systems, Event-Driven Architecture, Caching, Database Indexing, JWT

Database: MySQL, Redis

Messaging: Apache Kafka

Infrastructure & Tools: Docker, Linux, Git, Postman, Cursor

Core Concepts: OOP, Design Patterns, Data Structures & Algorithms

Education

Master of Computer Application (MCA) - 82%

Aug 2022 - Oct 2024

Lovely Professional University

Jalandhar, Punjab

Achievements

- Won **Best Employee of the Quarter Award** twice at RNGplay.
- Solved **300+** Data Structures and Algorithms problems on LeetCode.
